

# Global Outreach Partner Asian Indian Ministries

**In February 1994, Sam and Latha Bandela established Chamblee-Doraville Ministry Center in the Atlanta area and led it to be an established ministry with 10 full-time employees and a dozen different community based programs.**

In 2000, Sam and Latha took new assignment with Cooperative Baptist Fellowship (CBF) to reach unreached and unevangelized people groups in India with special focus on North India. Sam has helped tsunami survivors with life skills programs such as sewing centers and other community projects, including distribution of fishing nets, school uniforms and Bibles.

With CBF mission's support, Sam has helped with medical clinics in the remote areas, film ministry and engaged in training, evangelism and church planting. Sam has been a CBF missionary for the past 15 years.

"Our mission and vision is to enlist, encourage, educate, equip, enable and empower Indian nationals for evangelism and church planting in India and the end result is church planting," Sam said. "Medical clinics, sewing center projects, supplying food, flood relief, water projects – they are all means and methods for evangelism. All that we do is helping people come to know the Lord and giving birth to a new churches."

Sam is a member of DBC, but his ministry requires him to visit other churches on many Sunday mornings.
