

Global Outreach Partner Jamaica Ministries

For over 15 years Dunwoody Baptist Church has been involved with the Child Development Agency (CDA) and ministry in Jamaica. In 1995 the first team from DBC went to St. Ann, Jamaica to work at Windsor Girls Home where they painted, made roof repairs, set up a library, built a rock wall and made other repairs to a children's home. As the years progressed, so did the involvement with the people, including the children who lived in the home, the directors, house mothers, duty officers, teachers and other employees of the home.

Each year, a team from DBC provides a fun and unique camp experience for boys and girls from all over the island. Sixty children from various orphanages are mentored and taught about God's love.

Alongside camp, DBC provides workshops for those who care for Jamaica's children through the CDA. Experts from the Georgia Baptist Children's Home join the team each year to train, encourage, and build relationships among the caretakers in Jamaica. This training is very valuable and provides a long term impact for children's future.

Jamaica Ministries began their scholarship program in 1997. Since its conception the program has had the privilege of assisting 19 young people who have been under the care of the Child Development Agency of Jamaica. At the present time there are four students going to college through the program.

Please Pray For:
The wellbeing of the children in the Jamaica children's homes, the patience and love of those serving the children and for the spread of the Gospel so that God's love may be more fully known.

Get Involved:
Join a short term mission team! Give a week and change a life. Contact the Missions Office to learn about upcoming trips.
